

The necessity of competition for bringing low cost / high innovation service to the American public was, I thought, a tenet of the Bush Administration. Do not but into the propaganda of "The Bells" and cable companies and let the fox not only guard the hen house, but move in! Competition requires competitors to be alive. If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a bell and a cable company, benefiting only the officers and share holders of these companies. DO NOT DO ALLOW THIS TO HAPPEN!!!! Chairman Powell: Please do not sell out to BIG BUSINESS, at the expense of small business (the source of most of the jobs in this country!) and the consumers of these services!
